Undergoing Bachelor's degree in Computer Science at UFF Rio das Ostras

## EXPERIENCE

### **Focus Consultoria, Rio das Ostras — *Software Engineer (Internship)***

MAY 2022 - SEPTEMBER 2023

I worked on projects covering different topics, using Python and other technologies. I developed a shift organizer, aiming to automate the process of allocating members and shift times in the room. I have also participated in a project for Atlas Copco, an automation with the SAP system for issuing invoices. Furthermore, I frequently provide training and courses for new internal members or those from other junior companies across Brazil, on Python, Excel, Power BI, among other resources.

### **Objecto Publicidade, Macaé — *Marketing Analyst (Internship)***

JANUARY 2023 - APRIL 2023

I worked on a dashboard and accident reporting project for Intersea. I refined Excel spreadsheets, integrated them with Power BI to generate dashboards, facilitating visualization and decision-making by the Intersea manager. I also worked on an internal project using Python to make requests to an API on the RD Station platform, aiming to obtain performance metrics for email marketing campaigns, generating automatic reports and automatic sending by email.
